

445 NW 6 Lot #1

My proposal for Jeanette Dye is to take \$136.92 off her bill. Upon talking to Gary all the water leaked out under the trailer and did not go down the sewer.

Council Members

I would like to request that the Council wave or agree to charge off a portion of my water bill for the past month.

During the Polar Vortex deep freeze, my pipes froze in my trailer. Once the pipes thawed out, one of the pipes burst and water was running on the ground for a great amount of time before it was fixed. As no water actually went into the sewer at that time but on the ground, I would like to request that some of the bill be waved or charged off.

Thank you in advance for your consideration.

Jeannette Dye
