The Company is granted the right to exercise of powers of eminent domain, subject to City Council approval. This franchise shall be effective for a twenty-five (25) year period from and after the effective date of this ordinance.

Section 2. The rights and privileges hereby granted are subject to the restrictions and limitations of Chapter 364 of the Code of Iowa 2023 or as subsequently amended or changed.

Section 3. The Company shall have the right to erect all necessary poles and to place thereon the necessary wires, fixtures and accessories as well as to excavate and bury conduits or conductors for the distribution of electric energy and communications signals in and through the City, provided the same shall be placed in accord with this franchise and City code regulations of the City, regarding the placement of structures, facilities, accessories or other objects in the right of way, including ordinances which assign corridors or other placements to users of the right of way and requirements which may be adopted regarding separation of structures, facilities, accessories or other objects.

Section 4. The Company shall, excluding facilities located in private easements or public utility easements (whether titled in Company exclusively or in Company and other entities), in accordance with Iowa law including Company’s Tariff on file with and made effective by the Iowa Utilities Board as may subsequently be amended (“Tariff”), at its cost and expense, locate and relocate its existing installations located in, on, over or under the right-of-way of any public street, right of way or alley in the City in such a manner as the City may require for the purposes of facilitating the construction, reconstruction, maintenance or repair of the street right of way or alley. The Company shall not be required to pay any City permits as needed as a result of City required relocation. If the City has a reasonable alternative route for the street, right of way or alley or an alternative construction method, which would not cause the relocation of Company installations or would minimize the cost or expense of relocation of Company installations, the City and Company shall work together to consider said alternative route or construction method. The City shall, in the extension or modification of streets and roads, make provision for the placement of company service lines and facilities on City-owned right of way without charge to Company. If project funds from a source other than the City are available to pay for the relocation of utility facilities, the City shall use its best efforts to secure said funds and provide them to the Company to compensate the Company for the costs of relocation.
