Here's ours. We're still fine tuning the Industrial section.

*Is this an issue
for anyone?*

Subject: [clerknet] Regulations around Box Containers in Residential Areas

Good afternoon all,

Our P&Z Commission met last night and a discussion point was residents placing metal shipping containers on their property. They wanted to know what other cities have in place regarding restricting or entirely forbidding shipping containers on properties that are zoned residential. They as a group do not want to allow shipping containers in residential areas, so if you happen to have something in place in your city could you please let me know so I can direct them to your ordinances on the subject?

Thank you!

Joseph Williams, City Clerk / Finance Officer

City of Clarence (pop. 1,039)
411 Lombard St, PO Box 418
Clarence IA 52216
