

Town Square Flower Pot Project

Presented by the Earham Garden Club

Project Overview

The Earham Garden Club is committed to enhancing the natural beauty of our town and fostering a sense of pride and connection among residents. Our latest initiative—the **Town Square Flower Pot Project**—aims to beautify downtown Earham and create a vibrant, welcoming atmosphere for all.

- **Location:** Four large flower pots placed at each corner of the intersection at First Street and Chestnut
- **Timeline:** Installed by **Mother's Day** and maintained through **Labor Day**
- **Goal:** Transform the town square into a colorful, inviting space that reflects the spirit of our community

Community Benefits

- Enhances curb appeal and encourages foot traffic
- Creates a positive first impression for visitors
- Fosters community pride and seasonal joy

Project Details

- **Materials Needed:** 4 large flowerpots, flowers, soil, fertilizer
- **Estimated Cost:** \$600
- **Funding Sources:** Donations, sponsorships, and personal contributions by Garden Club members
- **Maintenance Plan:** Watering and seasonal care provided by Garden Club members and volunteers. If necessary, we can remove the pots and store at a member's home over the winter. We would like to decorate the pots for the holiday to go with the annual Christmas tree.

Community Support

We've received enthusiastic support from residents and local businesses who are excited to see this project come to life. Their encouragement fuels our commitment to making Earham bloom.

Next Steps

We respectfully request **City Council approval** to move forward. Members of the Garden Club are happy to attend a council meeting to present our proposal and answer any questions.
